

130-BBL VACUUM TRAILERS

PCI Manufacturing's vacuum trailer is the latest addition to the company's product line. Standard features include three-point suspension, two-speed crank landing legs and quarter-inch SA-36 steel barrel; each barrel is fully gusseted to withstand the rigors of both on and off road.

No need to worry about stepping over hoses or through mud—PCI's vacuum trailer allows easy access from the ground to the upper walkway. The wedge sump offers room for 4-inch and 6-inch loading lines, giving you all the flexibility you need to accomplish any job.

These vacuum trailers are built according to a rigorous standard, fully inspected and tested to ensure that every weld, brake light and coat of paint functions flawlessly.

We keep our word, so you can keep yours.

All PCI products are designed and built in our state-of-the-art facility, with complete in-house fabrication, blasting and painting departments. Absolute control of the manufacturing process ensures the highest quality and consistency.

Our equipment is built to provide you with a long-term investment while meeting OSHA safety standards. PCI Manufacturing's low-maintenance, mobile designs ensure that your investment can be used again and again.
