

**Fruitland Manufacturing™** was established in 1957 as a tool & die shop, machine repair facility and manufacturer of custom-designed production machinery. Our customers were comprised of primary steel manufacturers and metal working industries across southern Ontario, Canada.

We have since expanded on a world-wide scale as the manufacturer of heavy duty **Fruitland** Vacuum Pumps. The RCF500 Vacuum Pump became the flagship for **Fruitland** as a result of unparalleled success with oil clean-up operations in Siberia, tank cleaning on aircraft carriers, the J.F. Kennedy Space Center in Florida and by environmental Pump Truck operators everywhere. Our pumps are trusted to function in the most severe conditions with minimal maintenance, from the harsh deserts of the Middle East, the severity of the Arctic Circle to the rugged oil fields all over the world.

**Fruitland Manufacturing™** is keeping pace with modern technologies by committing large investments into new C.N.C. machining equipment and state-of-the-art CAD/CAM systems. Virtually any type of custom machining can be performed ranging from one piece to multiple piece production runs. All our C.N.C. or conventional machines and equipment are operated by our highly qualified and dedicated staff who are committed to satisfying customer needs with superior quality, excellent value, and first rate customer service.

**Fruitland Manufacturing™** has an integral Quality Management System which is registered to ISO 9001: 2008 with BSI.

## Eliminator Series

The Eliminator Series is designed to tackle the toughest applications in the fluid handling business including **Oilfield, Industrial, Septic, Grease, Environmental & Wastewater.**

The Eliminator Series was developed in response to a need in the industry for simplicity. This ELIM A-SM500LUF is designed as a “*Ready to Rig*” system for easy installation on a truck frame. It features a Secondary Shut-off, Muffler, Pressure Relief Valve and a Vacuum Relief Valve. The package also includes an Angle Gear Box, Angle Gear Box Adapter and Coupling

### Features of the “*Ready to Rig*” Eliminator Series:

- RCF500 or RCF370 Pump
  - Moisture Trap
  - Includes Filter and Four-Way Valve
  - Pressure and Vacuum Relief
  - Optional Mounting Brackets
  - Installation is easy as **1, 2, 3**
1. **Bolt it up.**
  2. **Connect Drive and Plumbing**
  3. **Begin Loading and Unloading**
- 2-Year Factory Warranty Available with RCF500 or RCF370 Pump Valves
  - Optional Drive Configurations
  - Pressure, Vacuum Gauge
  - Drain Valves
  - Powder Coated Components
  - Reduced Labor and Engineering Costs
  - High-Efficiency Oil Catch Muffler
  - Various Rig-up Options
  - Minimal Design Footprint
