

Vantage aluminum vacuum transports offer the reliability of a proven aluminum manufacturer in our light weight vacuum transports.

Available in capacities of 150-to-200 barrels, with the ability to custom size other tanks, the Vantage transport gives you more options from one manufacturer.

DOT/ASME code vessels are available as well

- Bumped heads to control material thinning
- Aluminum Primary and Secondary
- Oversized 5" Rings
- Bolt on Hose Troughs and Walkway with 3-point contact access
- Wide Track 102" Air Ride
