Vacuum Pump

Driven. By Design

Renowned for reliability, efficiency and ease of installation, Fruitland's new line of CVS Liquid Ring and Liquid Cooled Vacuum Pumps are designed with state-of-the-art technology for maximum performance and low-life cycle costs.

Engineered for tough, durable use, minimizing maintenance and downtime, both our VacuStar W, water cooled and our VacuStar WR, liquid ring vacuum pump have a low weight, compact design and maximum vacuum efficiency.

VacuStar W features include: volume flow range from 577 up to 1570 m³/h (339 - 924 CFM), ATEX-temperature class 3* and cooler operation resulting in longer life for vanes, bearings and casings.

VacuStar WR features include: volume flow range from 1256 up to 4063 m³/h (739 - 2390 CFM), ATEX-temperature class 5 and internal cooling with cavitation protection.

Fruitland Pumps... the standard for quality, performance and reliability.

*with integrated cell aeration system
